Three piece rims for your classic car

With this list we offer high quality racing wheels in modular design for your classic car or Youngtimer.

The BBS rims originally have been developed for racing use and since the 70th these rims are assembled to many touring cars and formula racing cars.

For the classic cars of the 70th and 80th these rims for sure are an optical highlight.

This catalog will give you an overview on the available parts for the BBS racing wheels. The parts list shows only a small part of the program of BBS racing wheels. Before order please ask us for the availability of the parts listed.

In case of questions regarding the rims please contact us. We will advise you on the selection of rim parts for your BBS wheel. Please ask for an individual offer for complete rims.

Price list version May 1st 2011.

The prices in this list are Euro prices and include the valid German tax.
